

Electrical Yarn Cutter "NH 403"

with Automatic Reset,
applicable for all Yarns and Filaments

Special Features:

- very compact construction
- correct cutting of the yarn
- integrated spark extinguishing
- solid plastic housing
- blades and anvil exchangeable

Technical Details:

Input Voltage: 24V DC $\pm 10\%$
black = 0V / white = +24VDC

Power Consumption: NH403D = Peak 3,2A (automatic reset after 50ms), then 10mA
NH403A = 3,2A (up to 500ms)

Operation Range: up to 5.000 dtex
